focus
the well made play
did you ever hear such shit?

     "   puke
how abouthre academic poem with a string of ice down the scrotum
how you're admired or something in the writing
must be some inmates the doctors like
more than others
they're docile and sweeetly eccentric

i'm just gonna keep
giving the finger
forever
whether to shit or go blind
I guess you really have to focus
to make an audiece as batshit-
crazy as life
which has a way of unfuocusing
jusdt when you're most acute
and really charged form the course or the therapy session
or the sermon on the mouth
let go on this one and let the anger LASH!

don't worry bout self cons or whine
get unbalanced

let's hear bit by bit control lost

writing this Dec 13 and really not revving up to it; preoccupied
with Greene ST Artists co-op and getting into it and my
wonderful apt there with 5 huge and tall windows in Germantown
a wild and disparate and in pockets genteel neighborhood
